

In the claims:

Claims 1-16 cancelled.

17. (Currently amended) A method of making a medication, comprising the steps of making from an initial material an active medicinal substance in a therapeutic dose; making from the same initial material a potentiated medicinal substance produced by a homeopathic method; and combining the active medicinal substance in the therapeutic dose and the potentiated medicinal substance produced by the homeopathic method to produce the medication.

Claim 18 cancelled.

19. (previously presented) A method as defined in claim 17, wherein said combining includes impregnating the active medicinal substance in the therapeutic dose with the potentiated medicinal substance produced by athe homeopathic method so that the active medicinal substance in the therapeutic dose is a carrier for the potentiated medicinal substance.

20. (previously presented) A method as defined in claim 17, wherein said combining includes dissolving the potentiated medicinal

substance produced by the homeopathic method in the active medicinal substance in the therapeutic dose so that the active medicinal substance in the therapeutic dose is a carrier for the potentiated medicinal substance.

21. (previously presented) A method as defined in claim 17, wherein said combining includes introducing the potentiated medicinal substance produced by the homeopathic method into the active medicinal substance in the therapeutic dose formed as a paste so that the active medicinal substance in the therapeutic dose is a carrier for the potentiated medicinal substance.

22. (previously presented) A method as defined in claim 17, wherein said combining includes introducing the potentiated medicinal substance produced by the homeopathic method and the potentiated medicinal substance produced by the homeopathic method simultaneously into an organism so that the active medicinal substance in the therapeutic dose and the potentiated medicinal substance produced by the homeopathic method together make said medication in the organism.

23. (Currently amended) A ~~medicin~~medication, comprising an active medicinal substance produced from an initial material in a therapeutic dose; and a potentiated medicinal substance produced from the same initial

material by a homeopathic method and combined with said active medicinal substance produced in the therapeutic dose.

Claim 24 cancelled.

25. (Currently amended) A ~~medicin~~medication as defined in claim 23, wherein said active medicinal substance in the therapeutic is impregnated with the potentiated medicinal substance produced by the homeopathic method so that the active medicinal substance in the therapeutic dose is a carrier for the potentiated medicinal substance.

26. (Currently amended) A ~~medicin~~medication as defined in claim 23, wherein said potentiated medicinal substance produced by the homeopathic method is dissolved in the active medicinal substance in the therapeutic dose so that the active medicinal substance in the therapeutic dose is a carrier for the potentiated medicinal substance.

27. (Currently amended) A ~~medicin~~medication as defined in claim 23, wherein said potentiated medicinal substance produced by the homeopathic method is introduced into the active medicinal substance in the therapeutic dose formed as a paste so that the active medicinal substance in the therapeutic dose is a carrier for the potentiated medicinal substance.

28. (Currently amended) A ~~medicin~~medication as defined in claim 23, wherein said potentiated medicinal substance produced by the homeopathic method is introduced simultaneously into an organism with said active medicinal substance in the therapeutic dose, together making said medication in the organism.

29. (previously presented) A medication as defined in claim 23, wherein said active medicinal substance in the therapeutic dose is atropine sulfate produced from atropine while said potentiated medicinal substance produced by the homeopathic method is Atropini Sulfati C30 produced by a consecutive dissolving and shaking of the atropine in accordance with the homeopathic method.

30. (previously presented) A medication as defined in claim 23, wherein said active medicinal substance in the therapeutic dose is acetyl-salicylic acid produced from acetylsalicylic acid, while said potentiated medicinal substance produced by the homeopathic method from the acetylsalicylic acid is aciolum salicylicum obtained by impregnation of a neutral substance which is milk sugar with a solution of acidum salicylicum with a potency C30 in accordance with the homeopathic method.

31. (previously presented) A medication as defined in claim 23, wherein the active medicinal substance in the therapeutic dose includes 1.00

ml of Prednizolon, while the potentiated medicinal substance produced by the homeopathic method is 0.005 mg of potentiated prednizolon Prednizolon in 1200 dissolving) Cortex, C12 prepared in accordance with the homeopathic method by 12<sup>th</sup> centile dilution of prednizolone.

32. (previously presented) A medication as defined in claim 23, wherein said active medicinal substance in a therapeutic dose is insulin, while said potentiated medicinal substance produced by the homeopathic method from insulin is Insulinum C30.

33. (previously presented) A medication as defined in claim 23, wherein said active medicinal substance in the therapeutic dose is a paste from zinc, while said potentiated medicinal substance produced by the homeopathic method from zinc is Zincum Metallicum.

34. (previously presented) A medication as defined in claim 23, wherein said active medicinal substance in the therapeutic dose is Sarcolysin dissolved in potassium chloride, while said potentiated medicinal substance produced from the sarcolysin by the homeopathic method is Sarcolysinum 200.

~~36~~35. (Currently amended) A method of treatment with a medication, comprising the steps of making a medication including,

~~combined with one another~~, an active medicinal substance made of an initial material in a therapeutic dose and a potentiated medicinal substance produced by a homeopathic method from the same initial material; and introducing the medication into an organism.

3736. (Currently amended) A method of treatment as defined in claim 3635, wherein said active medicinal substance in the therapeutic dose and said potentiated medicinal substance produced by the homeopathic method together, combined with one another, form first the medication which is subsequently is introduced into an organism.

3837. (Currently amended) A method of treatment as defined claim 3635, wherein the active medicinal substance in the therapeutic dose and the potentiated medicinal substance produced by athe homeopathic method are introduced into the organism separately, to be combined with one another in the organism.
